DETAILED ACTION

1. This non-final rejection is in response to the amendment filed May 19, 2004. By the amendment, Claims 1-8, and 38-45 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected 1-8, and 38-45, there being no allowable generic or claims 1-8 and 38-45 have been withdrawn. Claims 16-19, and 53-56 remain pending in the application.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 16-19, and 53-56 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shaw et al "Shaw" (U.S. Patent No. 6,684,219) in view of Wong (U.S. Patent No. 6,115,690).

As per claims 16-19 and 53-56, Shaw discloses a method for building and maintaining a database comprising:

associating a particular metadata attributes; displaying a graphical model (see abstract and col. 7, lines 35-48); allowing a user to select the graphical model; performing a search of a database using the metadata attributes, and dynamically creating a search menu using the metadata attributes (presenting the user with a graphical user interface for allowing the user to perform a search) (col. 10, line 44 through col. 11, line 40). Shaw et al do not explicitly disclose searching a particular component including a manufacturer part number. Wong in the

same field of endeavor, discloses the concept of searching a database for a manufacturer part number. Note col. 10, lines 15-61). It would have been obvious to a person of ordinary skill in the art to modify the teachings of Shaw to include the teachings of Wong with the motivation to obtain a quote based on a product.
